- 2.2. CIS promotions shall not focus on returns without a concurrent reference to risks.
- 2.3. CIS promotions shall not denigrate a CIS's competitors in such a way as might lower the reputation of the industry, or use language or artwork that would be considered by a reasonable person to be in poor taste.

Standard 3: Disclaimers/Warning Statements / Notes to Prospective Investors

 - A. All CIS promotions shall include disclaimers/warning statements/notes:
 - a) to the effect that investment in a CIS involves risk;
 - b) the prospectus and the Key Facts Statement should be read carefully for further details including the investment goals, risks, charges and expenses;

The disclosure shall also present the return that would have been realized had there been no change in accounting principle.

Use of Standardized Formulas

- 5.15 If the methodology used in the calculation of the return has changed, the promotion shall prominently disclose the nature of the change and the impact thereof on the calculation of the scheme’s return.
- 5.16 All return calculations presented in media releases, advertisements and promotional material should assume the complete redemption of the investment at the end of the performance period.
- 5.17 If calculations do not assume the complete redemption of the CIS investment at the end of the performance period, this fact shall be disclosed in performance presentations.

Standard 6: Relevance of Performance Data

- 6.1 Where advertisements and promotional material present performance information, the CIS manager shall include performance information as at the end of its most recently completed calendar quarter.
- 6.2 Promotions shall provide information directing users to either an internet website or telephone number which provides up to date performance information.
- 6.3 Subject to there being a change in the operations of a CIS, (e.g. change in investment objectives, change in CIS manager, a merger or restructuring), where such a change has a significant impact on the CIS's performance (or its presentation), any presentation of performance that includes information from prior to such a change should be accompanied by a prominent explanation in the disclosure that is appropriate in the context of the advertisement to ensure such presentation is not misleading.
